

Utkarsh Mishra

Full Stack Web Developer — B.Tech IT Student
mishrautkarsh139@gmail.com +91 9792841314
github.com/utkarsh139 linkedin.com/in/utkarsh281

Summary

Final-year B.Tech IT student with hands-on experience in full-stack (MERN) development and a solid foundation in software engineering. Looking to contribute to real-world projects in growth-oriented environments.

Education

Raj Kumar Goel Institute of Technology, Ghaziabad

B.Tech IT — CGPA: 7.24 (Till 5th Sem)

2022–2026

Work Experience

Backend Developer Intern — Zoro Innovations

Jul 2025 – Aug 2025

Smart Campus Management System (Unpaid, Remote)

- Developed backend modules for Analytics Dashboard using Node.js and Express.js.
- Created schemas and controllers for data tracking and reporting.
- Integrated new analytics routes into the backend system.
- Collaborated via Git and contributed code through pull requests.

Projects

Perscripto — Online Doctor Appointment System

GitHub — Frontend (Vercel) — Backend

(Render)

MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Role-based login for doctors, patients, and admins.
- Authentication, form validations, and RESTful API integration.
- Deployed on Render (backend) and Vercel (frontend).

Tomato Delivery — Food Ordering Web App

GitHub

MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Designed a food delivery platform with login/signup, cart, and order flow.
- Built REST APIs for item management and order processing.
- Fully responsive frontend with React and Tailwind.

Schema Setup — Announcement API (Intern Task)

GitHub

Node.js, Express.js, MongoDB

- Designed and implemented backend schema for a scalable announcement system.
- Created routes and controllers for CRUD operations.

Skills

Primary Language: C++

Backend: Node.js, Express.js, REST APIs

Frontend: HTML, CSS, Tailwind CSS, React.js, JavaScript

Database: MongoDB, SQL

Tools: Git, GitHub, VS Code, Postman

CS Concepts: Data Structures and Algorithms, OOP, Operating Systems, DBMS, Caching, Version Control

Certifications and Activities

- Cybersecurity Essentials — Cisco Networking Academy, Feb 2025
- Programming in Python — Coursera, Oct–Dec 2023
- Cloud Computing — AcmeGrade, Sep–Nov 2023
- Member of SPIC collaboration team at RKGIT; organized tech events.
- Co-organized college coding contest with 80+ participants.
