Profile

Final-year B.Tech (Information Technology) student with a solid foundation in software development and problem-solving. Experienced in building web applications using the MERN stack and familiar with software testing basics, APIs, and database systems. Seeking opportunities to contribute and grow through practical experience in development or QA roles.

Education

Raj Kumar Goel Institute of Technology, Ghaziabad
B.Tech in Information Technology
CGPA: 7.24 (Till 5th Semester)
2022 – 2026

Tulsi Vidya Niketan, Varanasi
Class XII (CBSE), 2022 — 76.80%

Glenhill School, Varanasi
Class X (CBSE), 2020 — 81.20%

Technical Skills

– **Languages:** Java, Python, C++, JavaScript
– **Web:** HTML, CSS, React, Node.js, Express, Tailwind
– **Databases:** SQL, MongoDB
– **Testing:** SDLC, Unit Testing, System Testing, Regression Testing, Postman
– **Tools:** Git, GitHub, VS Code
– **Concepts:** OOP, DBMS, REST APIs, OS

Certifications

– Cybersecurity Essentials – Cisco (2025)
– Programming in Python – Coursera (2023)
– Cloud Computing – Acmegrade (2023)

Campus Involvement

– Member, SPIC Tech Team at RKGIT — coordinated tech talks
– Co-organizer, campus coding competition (80+ participants)

Projects

Perscripto   *GitHub + Vercel Deployed Project*
Tech Stack: Vite, JavaScript, HTML, CSS, Git, GitHub, Vercel

– Designed and developed a responsive web application using HTML, CSS, and JavaScript with Vite as the frontend build tool.
– Initialized and managed a Git repository, performed version control tasks using Git, and hosted source code on GitHub.
– Configured Git credentials, committed and pushed code to a public repository `perscripto1` using the `main` branch.
– Integrated GitHub with Vercel, selected appropriate build preset for Vite, and customized build settings for production deployment.
– Successfully deployed the application to Vercel, enabling public access and automated redeployment on each GitHub commit.
– Diagnosed and resolved deployment configuration issues related to root directory and Vite output settings.

Live Demo: perscripto1.vercel.app
Code: github.com/utkarsh139/perscripto1

Sneaker Store – Static Product Page
HTML, CSS

– Created a visually clean layout using CSS grids and hover animations.
– Built the UI with responsive design principles and minimalistic structure.
